### About Us

As a nonprofit 501(c)(3) public charity, First Command Educational Foundation (FCEF) helps people achieve financial freedom through objective financial education, information, tools, and scholarships.

Our primary focus is America's active and veteran service members, civilian federal employees, and their families. Our services also extend to organizations who share the values and aspirations of our core constituents.

FCEF provides financial readiness education at little or no cost across the nation. Military units, community and professional organizations, women's causes, youth groups, high school students, economically at-risk populations, and other groups are among those benefiting from FCEF's proven financial readiness curriculum.

FCEF's scholarships broaden education opportunities for men and women across the country seeking trade school or college degrees.

***Thank you for helping us educate those who serve!***
